Head, Department of Information Technology.

COMMENDATION

We would like to express our heartfelt gratitude to everyone who contributed to the successful completion of our project "Netflix DataBase Management System ".

The success and ultimate conclusion of this project necessitated a great deal of advice and support from a large number of individuals and we are incredibly fortunate to have received it all along with the project's completion.

We owe a debt of appreciation to **Prof. Archana N. Vyas**, our project guide, who took an interest in our project work and directed us through it till it was completed by giving all of the required assistance for creating a solid Database System.

We'd also want to express our gratitude to all of our speakers.

Finally, we express our gratitude to all of our friends and colleagues.
